

# fail2ban защита от перебора

## Использование fail2ban

```
bash
```

```
# Установка
```

```
sudo apt update && sudo apt install fail2ban
```

```
# Настройка для SSH
```

```
sudo nano /etc/fail2ban/jail.local
```

Добавьте конфигурацию:

```
[sshd]
```

```
enabled = true
```

```
port = ssh
```

```
filter = sshd
```

```
logpath = /var/log/auth.log
```

```
maxretry = 3
```

```
bantime = 3600
```

```
findtime = 600
```
